

Our Statement of Integrity

At Singing Bird Farm

- We are Certified Organic by IOPA
- We are committed to minimizing machinery and tilling; instead, we use a raised bed system, hand weed, and use burlap and hay to control weeds
- We strive to be as self-contained as possible; we manufacture our own compost using a variety of materials from the farm in addition to local manure
- Use heritage seeds to help to keep old varieties alive
- Have built all our structures and outbuildings from locally sourced or recycled materials
